To Whom It May Concern:

Chris Smith has been a patient under my care since September 1993. Her diagnoses include asthma, with risk of anaphylaxis.

Please ensure that Ms. Smith has access at all times to the following medications: Vanceril oral inhaler, Epipen epinephrine auto-injector, and the antihistamine clemastine fumarate (1.34 mg.) It is preferable that she keeps these medications with her, so that she can administer them promptly, as needed. Do not substitute other medications for those listed above.

If you have any questions, please call (323) 123-3456.

Sincerely,

J.Strangelove, M.D.
